- Become a Fresher - Complete one star at Devplus - 2021

## Education

### Bachelor of Information Technology

2018-2022

UNIVERSITY OF GREENWICH - VIET NAM

## Work Experience

### Fresher Frontend Developer

10/2021/ - 08/2022

#### ST UNITED COMPANY - DA NANG

- Participated in an internship program at ST United.
- Played an active role in developing project interfaces using ReactJS.
- Gained invaluable insights into the collaborative nature of project development during the two-month internship.
- Worked closely with a talented team to sharpen skills and contribute meaningfully.
- Offered a full-time position upon completing the internship, allowing for further professional growth within the organization.

### Frontend Developer

12/2022 - 04/2023

#### SACOMBANK - HO CHI MINH

- Responsible for designing and implementing user interfaces for static pages at Sacombank.
- Ensures that the interfaces are both visually appealing and functional.
- Creates dynamic advertisement and marketing websites aligned with the company's branding and promotional goals.
- Refines technical skills, particularly in HTML, CSS, and JavaScript.
- Deepens understanding of web design principles.
- Learns to balance aesthetic design with practical functionality for an optimal user experience across various digital platforms.

### Frontend Developer

05/2023 - 09/2023

#### GREEN GLOBAL COMPANY - DA NANG

- Responsible for designing interfaces and features for Da Nang Port operations.
- Implement various functionalities to support the logistics sector.
- Ensure that systems are efficient and user-friendly.
- Enhance skills in jQuery through hands-on experience.
- Apply jQuery to create dynamic and responsive features for the platform.

### Fullstack Developer

09/2023 - Now

#### SAPOTACORP COMPANY - DA NANG

- Worked at an outsourcing company with exposure to a variety of project models.
- Gained experience across diverse industries and solutions.
- Involved in e-commerce projects, researching platforms like Shopify and other e-commerce development frameworks.
- Enhanced full-stack development skills, focusing on NodeJS and ReactJS.
- Improved project management skills, including team leadership and task delegation.
- Developed problem-solving and risk management abilities.

# My Project

---

## Bookstore - (Personal project)

04/2022 - 11/2022

Developed an online bookstore website with a user-friendly interface, offering a wide range of books across various genres. Implemented features for seamless browsing, easy ordering, ensuring a smooth user experience.

- **Role:** Fullstack Developer.
- **Technologies:** React, Redux, NodeJS, Express, RestAPI, MySQL.
- **Github:** [github-ngvnlc/bookstore](https://github.com/ngvnlc/bookstore)

## Booking Star - (Personal project)

01/2023 - 02/2023

Booking Star is a comprehensive room booking and rental application designed to make trip planning and accommodation easy and convenient. The app offers a wide range of options, from hotels to vacation rentals, catering to different budgets and preferences. With user-friendly features, it allows you to browse, book, and manage your reservations effortlessly, ensuring a smooth and hassle-free experience for your travels.

- **Role:** Fullstack Developer.
- **Technologies:** Typescript, Next JS, React JS, TailwindCSS, Prisma, MongoDB, NextAuth.
- **Github:** [github-ngvnlc/booking-star](https://github.com/ngvnlc/booking-star)
- **Website:** <https://booking-star.vercel.app/>

## DayGlory - Clothing Store

09/2023 - 11/2023

Developed an e-commerce website for a clothing store in partnership with a Japanese client. The project involved designing and implementing the site on the Shopify platform, providing a comprehensive solution for sales, marketing, and product showcasing. The website features a user-friendly interface for browsing and purchasing apparel and fashion products, with integrated marketing tools to enhance visibility and drive sales.

- **Role:** Front-End Developer, Team Member.
- **Team Size:** 4
- **Technologies:** Shopify.
- **Website:** <https://regarocrew.com>

## ToniTomi - Spice Recipe Store

12/2023 - 05/2024

The largest project I have ever worked on was for SNB Group, a company in Japan with over 100 years of history. The project involved developing a large-scale e-commerce system that specializes in selling and custom-mixing spices for various recipes. The platform utilized Shopify as the foundation for its e-commerce operations, including spice distribution and packaging. Customers can either purchase pre-formulated spice blends or customize their own blends based on their personal preferences.

- **Role:** Fullstack Developer, Technical Lead, Team Lead.
- **Team Size:** 2
- **Technologies:** Shopify, Shopify App, React, Next JS, NestJS, CosmosDb, GraphQL.
- **Website:** <https://tonitomi.com>

## Chumly - Management and Communication Tools

04/2024 - 12/2024

Chumly is a communication tool that connects people involved with farms in Japan. By utilizing features such as chat and task management, information can be easily shared and accumulated not only among employees, but also with company personnel who visit the farm.

- **Role:** Front-End Developer, Team Member.
- **Team size:** 10
- **Technologies:** React Native, Expo, Stream-Chat.
- **Website:** <https://ap.chumly.me>
